Directors' Report

Your directors submit their report on the Company and its controlled entities for the half-year ended 31 December 2008.

Directors

The Directors in office at any time during the half-year and until the date of this report are set out below. Directors were in office for this entire period unless otherwise stated.

- Mr. Charles Sweeney (Non Executive Director) (Acting Chairman)
- Mr. Ian Lowe (Chief Executive Officer)
- Mr. Ben Dixon (Chief Operating Officer)
- Mr. Robert Hunwick (Non Executive Chairman) (Resigned 11 August, 2008)
- Mr. Peter Vial (Non Executive Director) (Resigned 11 August, 2008)
- Mr Timothy Stroh (Alternate Director) (Retired 11 August, 2008)
- Mr. Tim Norton (Non Executive Director) (Resigned 12 September, 2008)

Principal Activities

The principal activities of the Consolidated Entity during the financial half-year consisted of:

- enabling, tracking and optimising all forms of digital marketing (e.g. online display advertising, search marketing, email marketing, wireless marketing);
- measuring and analysing website content, activity and behavioural diagnostics;
- offering a range of modular products that enable the marketer to correlate results across various activities;
- uniquely automating complex processes; and
- streamlining campaign administration and centralising the collection of real-time campaign performance information.

There were no other significant changes in the nature of the Facilitate Group's principal activities during the financial half-year, except for those items stated within this report.

Operating Results

The loss, for the half-year from the continuing operations of the Group, after providing for income tax amounted to \$2,093,216, after allowing for a \$1,393,492 de-recognition of net deferred tax assets, due to the poor performance of Impact Data. The consolidated loss for the group (including discontinuing operations) was \$9,072,507 which included an amount of \$6,211,886, being the impairment costs associated with an asset held for disposal.

Review of Operations

Half Year FY09 Results

Highlights for continuing operations (excluding Impact Data – see ASX release 'Resolution of Impact Data') for the half-year to 31 December 2008 include:

- 60% revenue growth versus the same half year period last year from \$1.72M to \$2.75M
- Expenses, excluding depreciation and amortisation, increased by only 11% over the corresponding period
- EBITDA improvement of 86% versus the same period last year, from (\$790k) to (\$112k)
- NPBT improvement of 37% versus the same period last year, from (\$1,106K) to (\$700K)

With revenue growth expected to continue at the current rate, management is committed to further cost reductions in order to secure a second half net profit; and positive cash flow for the fourth quarter.

International Operations

Much of Facilitate Digital's growth over the last six months is attributable to offshore operations, with major client wins in Europe, and United States of America which is in the implementation phase.

Further to this, client contracts were secured that encompass multiple countries. This is an objective around which key supporting elements of the 2009 financial year operating plan were crafted, and an achievement that evidences Facilitate Digital's unique offering is meeting industry needs. In particular, the company's independence is being viewed as increasingly valuable by agency clients and prospects.

Further to this, the United States business is now up and running, with a dedicated hub installed in the second quarter. The strategic partnership with leading US provider EyeWonder, incorporating shared sales initiatives across United States and across the Asia-Pacific region, has resulted in first American clients being signed.

In recognition of immediate opportunities available in Europe and United States, resources are being realigned accordingly, with the dual effect of reducing cash burn from slower sales cycle markets such as United Kingdom and South East Asia.

EyeWonder Partnership: Investment & US Market Entry

In September 2008, Facilitate Digital announced it had established a partnership with leading United States based technology firm EyeWonder Inc. The partnership includes shared sales initiatives in territories such as United States, Europe and the Asia-Pacific region, and an upfront investment in Facilitate Digital from EyeWonder of AUD \$500K at \$0.15 per share. EyeWonder shares rank the same as ordinary shareholders and EyeWonder is not entitled to a share of profits other than the receipt of dividends like any other shareholder. EyeWonder see the arrangement with Facilitate Digital as playing an important role in their global development, in particular the combined footprint of the two companies provides an operational platform through which multi-national agency group contracts can be won and

serviced.

Reflective of this, and in accordance with the terms agreed between the two companies, in February 2009 EyeWonder invested a further AUD \$447K in Facilitate Digital, for which shares were issued at \$0.035 per share, a price premium of 133% to the Facilitate Digital Group (FAC) share price of \$0.015 at the time of issue.

This clearly demonstrates the confidence EyeWonder have in Facilitate Digital's people and technology, and further aligns and strengthens the relationship.

Subsidiary Impact Data

Facilitate Digital continues to seek terms of agreement with the vendors of Impact Data that would see the subsidiary separated from the FAC Group.

Dividends Paid or Recommended

The Directors do not recommend the payment of a dividend and no dividend has been paid or declared during the half-year.

Financial Position

The net assets of the Facilitate Group have decreased by \$8,456,875 from \$12,620,012 at 30 June 2008 to \$4,163,137 at 31 December 2008. This decrease has largely resulted from the pending disposal of and impairment of an asset classified as being held for disposal, being the Impact Data Group.

The Facilitate Group has a strong financial position, with the current ratio increasing from 52% at 30 June 2008 to 114% as at 31 December 2008.

The Group has continued to invest extensively in research and development to continually enhance its product suite and maintain leadership as a provider of digital marketing solutions.

The directors believe the Group is in a strong and stable financial position to expand and grow its current operations.

Significant Changes in State of Affairs

The following significant changes in the state of affairs of the Company occurred during the financial half-year:

(a) Capital Raising

On 17 September, 2008, 3,333,333 fully paid ordinary shares, at \$0.15 per share, were issued to EyeWonder. The proceeds from the placement was utilised for working capital purposes.

(b) Acquisition

On 30 September 2008, the Company reached an agreement to acquire remaining 50% of Facilitate Digital Europe Marketing Technology Limited, as at 31 August, 2008. The Company issued \$75,334 worth of fully paid ordinary shares, at a price of 20 cents per share to fund the acquisition.

After Balance Date Events

EyeWonder Australia Pty Ltd

On 6 February, 2009 a further 12,124,283 fully paid ordinary shares, at \$0.035 per share were issued; the proceeds from the placement are to be used for working capital purposes. The terms of the investment include a further option to subscribe for up to \$500,000 worth of fully paid ordinary shares with the total shareholding of EyeWonder after the

FACILITATE DIGITAL HOLDINGS LIMITED

ABN 84 093 823 253

subscription not to exceed 19.999% of the issued capital of Facilitate Digital Holdings Limited. This option will not be granted until the shareholders approve its issue.

Impact Data Group

Negotiations for the disposal of the Impact Data Group are well advanced, which will result in the original vendors resuming control of the Impact Data Group, whereupon the Facilitate Digital Group will be released from all liabilities relating to the Impact Data Group. The contingent consideration owing under the original share sale deed and deed of amendments are no longer due and payable.

Auditor's Independence Declaration

The lead Auditor's independence declaration for the half-year ended 31 December 2008 has been received and can be found below.

Signed in accordance with a resolution of the Board of Directors.

Notes to the Financial Statements

for the half-year ended 31 December 2008

Note 1: Basis of preparation and accounting policies

Basis of Preparation

This general purpose financial report for the half-year ended 31 December 2008 has been prepared in accordance with A ASB 134 Interim Financial Reporting and the Corporations Act 2001.

Unless stated otherwise the comparatives used for 2007 are: for the "Consolidated" Group, Facilitate Digital Holdings Ltd and controlled entities, i.e., the group of companies which includes the Impact Data Group. Reference to the "Facilitate" Group, includes Facilitate Digital Holdings Ltd and its controlled entities excluding the Impact Data Group of companies as identified per note 12.

Similarly, unless stated otherwise the results of the Group are those of Facilitate Digital Holdings Limited and controlled entities. The results of the Impact Data Group appear as under the heading of "Discontinuing operations" in the income statement.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide a full understanding of the financial performance, financial position and financing and investing activities of Facilitate Digital Holdings Limited and its controlled entities as the full financial report.

It is recommended that the half-year financial report be read in conjunction with the annual report for the year ended 30 June 2008 and considered together with any public announcements made by Facilitate Digital Holdings Limited during the half-year ended 31 December 2008 in accordance with the continuous disclosure obligations of the ASX listing rules.

Changes in accounting policies

The accounting policies and methods of computation are the same as those adopted in the most recent annual report, except where stated elsewhere in this report.

Continuation as a going concern

The group has recorded an operating loss of \$9,072,507 for the period of which \$6,902,167 relates to the operating loss of its subsidiary Impact Data and the impairment of the group's investment in Impact Data.

Notwithstanding the significant loss for the period, the directors are satisfied that the group can continue as a going concern for the following reasons;

- The group has commenced litigation against the vendors of Impact Data and is satisfied that if the matter proceeds to judgement that the group will succeed with its claims against the vendors,
- Unrelated to any potential settlement of the group's claims against the vendors of Impact Data (which may or may not occur), the group will shortly dispose of Impact Data which will remove the operating cash outflows and operating losses related to Impact Data from the group,

FACILITATE DIGITAL HOLDINGS LIMITED

ABN 84 093 823 253

- The group has forecast positive operating profit and cash from operations for the period 1 January 2009 to 30 June 2009 and then significantly increased operating profit in the year ending 30 June 2010, and
- The directors are satisfied they could raise additional equity in the unlikely event that the cash from operations was insufficient to cover short term cash outlays and is evidenced by the recent additional equity injected by EyeWonder Australia in February 2009.

Based on the above factors, the Directors are confident that the company can meet its debts as and when they become due and payable and the accounts have been prepared on a going concern basis.

However, it is recognized that the ability of the group to continue as a going concern is dependent upon the production of sufficient future operating profits and cash from operations for the next 12 months and should the group be unable to produce sufficient operating profits and cash from operations there is some uncertainty about whether the group can continue as a going concern. Should the group be unable to continue it may be required to realise assets and extinguish liabilities other than in the normal course of business and at amounts different from those stated in the financial statements. The financial statements do not include any adjustment relating to the recoverability and classification of recorded asset amounts nor to the amount and classification of liabilities that might be necessary should the group not continue as a going concern.

Net assets attributable to discontinuing operations	899,587

The assets and liabilities have been adjusted based on the Director's best estimate of recoverable amount.

Purus Energy Limited

On 12 April 2007, Purus Energy Ltd discontinued its exploration activities, upon its merger with Facilitate Digital Group, the merger resulted in an amount of \$77,124 being raised as goodwill within intangibles assets. As this relates to a discontinued operation from a prior year, it is now prudent that this amount be written down to nil value and is reflected in the loss recognised on re-measurement to fair value.

Note 6: Commitments and contingencies

The only changes to the commitments and contingencies disclosed in the most recent annual financial report are specified below:

Financial Lease Commitments

Finance leases are capitalised in the financial statements:

An equipment lease to the value of \$125,722 has been entered into in the United States, with a term of three years with rentals payable monthly, is still to be formalised although the equipment has been installed. Therefore the leased asset has been capitalised in the financial statements and included under "Property, plant and equipment" and the associated lease liability has been included in current and non-current liabilities.

Litigation

A claim for specific and unspecific damages was lodged by Facilitate Digital Holdings Limited during the period against the vendors of Impact Data Pty Ltd and certain individuals associated with the vendors in relation to alleged conduct which was misleading or deceptive or likely to mislead or deceive. At the time of issuance of this report the matter is still pending. Negotiations are well advanced in relation to this matter and the anticipated outcome is reflected in this report, as the impairment loss related to discontinuing operations.

As part of the acquisition of Impact Data Pty Ltd the share sale deed and deed of amendment required Facilitate to pay an interim cash consideration of \$4m to the sellers of Impact Data on 31st October 2008. Based on legal advice the Directors are satisfied that Facilitate is not required to pay the interim cash consideration of \$4m to the prior vendors of Impact Data. Facilitate also has taken legal action against the prior vendors of Impact Data for misleading or deceptive conduct and are seeking damages.

Note 7: Prior year adjustment

The Balance Sheet at 30 June 2008 and Income Statement for the half- year ending 31 December 2007, have been restated as a customer database licence included in Impact Data's Balance Sheet under intangible assets for \$1,411,952 should have been amortised over 4 years from the date of purchase being 1 July 2007. The effect of this change is as follows:

Balance Sheet – 30 June 2008

Intangible assets were reduced by an amount of \$352,988 and retained earnings of \$92,930, shown in the 2008 annual report was reduced to a retained loss of \$260,058. This restatement is reflected in the opening balance of retained earnings in the December 2008 Balance Sheet and the Statement of Changes in Equity.

FACILITATE DIGITAL HOLDINGS LIMITED

ABN 84 093 823 253

Income statement for the half-year ended 31 December 2007

Amortisation expense in relation to intangible assets was increased by an amount of \$176,494 and the profit for the half-year of \$34,907 was reduced to a loss of \$141,587. This change has been reflected in loss attributable to members of parent entity in the 31 December 2007 Income Statement and the Statement of Changes in Equity.

Note 8: Tax

The deferred tax assets and liabilities reflected in the accounts as 30 June, 2008 were reassessed in the light of the poor performance of Impact Data, consequently the deferred tax asset of \$1,393,492 was de-recognised which is shown as Income tax expense in continuing operations at 31 December 2008.

Note 9: Joint venture

On 31 August 2008 Facilitate Digital Holdings Limited acquired the remaining 50% of the equity of the joint venture company, Facilitate Digital Europe Marketing Technology Limited. The deal was effective 1 September 2008 and Facilitate Digital Holdings Limited is therefore entitled to the full profits of the Facilitate Digital Europe Marketing Technology Limited from that date.

The acquisition price for Impact Data was based on an earn-out valuation, on a multiple of to 7.50 times the adjusted NPBT averaged over two years, plus net assets of \$134k and acquisition costs of \$70k, with \$6.5m paid up front (in equal shares and cash), \$4m was due in October 2008 but is unpaid at the time of issuance of this report, with the balance due in October 2009, in either cash or shares (at Facilitate Digital's option), after the 2009 financial year accounts for Impact Data have been finalised. The \$4m due in October 2008 and the final payment for the acquisition has not been provided based on the underperformance of Impact Data for which the Directors have assessed that based on expected NPBT results for the two years no further payments will be required.

Net Assets taken up at the time of acquisition were \$134k which included \$158k in cash and \$778k of trade debtors and assets, of which \$93k were intangible assets, less liabilities of \$802k.

Independent Review Report

To the members of Facilitate Digital Holdings Limited

Report on the Condensed Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Facilitate Digital Holdings Limited, which comprises the balance sheet as at 31 December 2008, and the income statement, statement of changes in equity and cash flow statement for the half year ended on that date, other selected explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001 and other mandatory financial reporting requirements in Australia. As the auditor of Facilitate Digital Holdings Limited and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

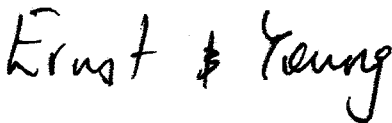

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Facilitate Digital Holdings Limited is not in accordance with the *Corporations Act 2001*, including:

- i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and of its performance for the half-year ended on that date; and
- ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Inherent Uncertainty Regarding Going Concern

Without qualification to the opinion expressed above which includes the ability of the company to continue as a going concern, attention is drawn to the following matter:

As set out in Note 1 to the financial report, the ability of the group to continue as a going concern is dependent on the production of sufficient operating profits and cash from operations for the next 12 months. Accordingly, should the group be unable to produce sufficient operating profits and cash from operations there is a material uncertainty whether the group will continue as a going concern and, therefore, whether the group will be able to pay its debts as they fall due and whether it will realise assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts, or to the amounts and classification of liabilities that might be necessary should the group not be able to continue as a going concern.
